

CARVER TUBS

ELECTRICAL REQUIREMENTS

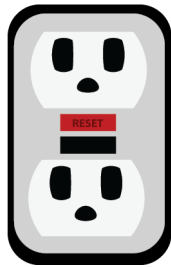

DANGER: RISK OF ELECTRIC SHOCK

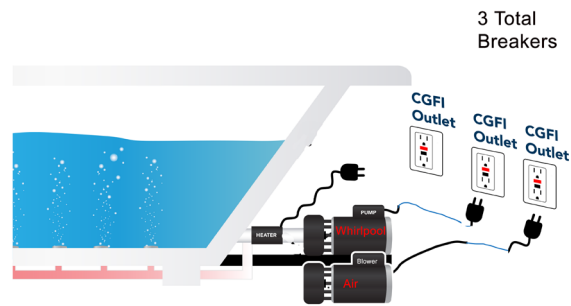

The quickest way to damage your bathtub features is to under-power the system.

NOTE: CARVER REQUIRES ONE (1) DEDICATED 20AMP 110-120V GCFI OUTLET FOR EACH POWER CORD SUPPLIED WITH THE BATHTUB.

**120V 20AMP
Dedicated
GFCI Breaker**

AIR MASSAGE, WHIRLPOOL PUMP, & HEATER

In the example above, there are 3 Dedicated 20AMP 110V GFCI Breakers.

1. One (1) Dedicated GFCI Breaker for the Whirlpool Pump
2. One (1) Dedicated GFCI Breaker for the Whirlpool Heater
3. One (1) Dedicated GFCI Breaker for the Air Massage Blower

Each Accessory Requires a Dedicated 120V 20AMP GFCI Breaker.

THESE CANNOT BE SHARED

(LED LIGHTS & OZONE CAN SHARE A BREAKER)
